

RT610 ELECTRONIC TEST THERMOMETER

RT610

With robust stem

Tapered, pointed sensor
for easy penetration

Quick reading
Industrial quality
Easy to clean
Water resistant
Hold function

Use for:

Fresh chilled foods
Frozen foods
Chemicals
Vaccines
Food processing

RT610 is a rugged and robust fast reading thermometer. It has a thick probe with a smaller pointed tip, which makes it easy to push through cardboard or meat.
Large display of temperature

Water and soil resistant resistant with covered pushbuttons for On/off, C/F and Hold.

Specifications:

Measurement range: -50 +150°C
Accuracy: $\pm 1^{\circ}\text{C}$ over full range
Resolution: 0.1°C (-19.9 to 150°) Otherwise 1°C
Unit size: Length 89mm, Height 30mm, Depth 125mm
Probe size: Length 125mm, diameter 5mm, 3.5mm at the tip.
Sampling time: 0.7 second
Battery: 1.5V, size LR44 or equivalent
Power off: After 10 minutes
